Condition: New. Publisher/Verlag: Zed Books | A Global History of Poverty and Prosperity | A scathing indictment of the current development agenda, and an impassioned call for a new and radical approach to alleviating global poverty. | Why did some countries grow rich while others remained poor? Human history unfolded differently across the globe. The world is separated in to places of poverty and prosperity. Tracing the long arc of human history from hunter gatherer societies to the early twenty first century in an argument grounded in a deep understanding of geography, Andrew Brooks rejects popular explanations for the divergence of nations. Brooks puts the case that international inequality was moulded by capitalist development over the last 500 years. After World War Two, international aid projects failed to close the gap between developed&apos; and developing&apos; nations and millions remain impoverished. Rather than address the root causes of inequality, overseas development assistance exacerbate the problems of an uneven world by imposing crippling debts and destructive neoliberal policies on poor countries. But this flawed form of development is now coming to an end, as the emerging economies of Asia and Africa begin to assert themselves on the world stage. iThe End of Development/i provides a compelling account of how human history unfolded differently in varied regions of the world. Brooks argues that we must now seize the opportunity afforded by today&apos;s changing economic geography to transform attitudes towards inequality and to develop radical new approaches to addressing global poverty, as the alternative is to accept that impoverishment is somehow part...
