Certainly, this is the finest job by any publisher. I was able to comprehend almost everything out of this published ebook. You won't truly feel monotony at any moment of the time (that's what catalogues are for concerning should you question me).

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Dawn of Mediterranean Civilisation The favourable reception by the public of my first essays on the excavations in Crete has encouraged me to write a second volume treating more fully of the evidences of ancient Cretan civilisation as now known to us. The material which I collected in Crete, and especially the results of my excavations at Phaestos, could not all be included in my former volume, and I have during the last three years excavated much in Sicily and Southern Italy, and intend to continue this work next year in Upper Italy. The monuments which have already come to light are of such importance that I propose to write a third volume on the Italians from the stone age to the first Hellenic colonies. In order to avoid the dryness of a purely technical work, and to make this volume more interesting to the general reader, I have kept the chapters in the form of essays, in which are related the things seen and lived through; and I hope that sufficient local colour is retained to enable the reader to follow the traces of the expeditions made and to participate in the feelings of one who leaves the old road of written history and makes his way through the ruins of the monuments up the stream of real history, unmodified by legend and illuminated only by the new light shining from the excavations.
