Working in the framework of a well-known theory of the actual process of how we learn, you will see the following important truths that have probably eluded you since you spent your first nickel: 1) That you actually learned much about how to spend starting at a very young age from the very ones who benefit from your purchases. 2) Technology has made the marketing machine more powerful than ever and yet people remain completely unaware of its white noise running in the background of their lives every day, influencing why, how and what they buy. 3) A new way to think and move forward to the someday you really want for you and your legacy. Peter Drew, founder of Buyers Intervention.
