

Cash Return on Capital Invested: Ten Years of Investment Analysis with the CROCI Economic Profit Model (Hardback)

By Pascal Costantini

ELSEVIER SCIENCE TECHNOLOGY, United Kingdom, 2006. Hardback. Book Condition: New. 231 x 168 mm. Language: English . Brand New Book. In this book, Pascal Costantini gives a lively and wonderfully readable account of ten years of efforts by a small group of investment analysts to find a reliable, practical and implementable method for valuing and selecting shares. The result of their effort is an original investment methodology called CROCI (Cash Return on Capital Invested), best described as a variation of the economic profit model. For over a decade now, Costantini's group at Deutsche Bank has been using this valuation tool every time it has had to take a view on the pricing of an equity asset, be it a market, a sector or an individual share in other words, every single working day, since it is this group's job to advise institutional investors on equity valuation. Costantini describes in detail, accompanied by concrete examples in the form of charts and graphs, the precise investment results of the actual implementation of the CROCI approach in the global equity markets since 1996. Readers will enjoy taking this journey with Costantini to see how and why the model was developed, assess the results of...
