

Publications of Cornell University Medical College studies from Department of Pharmacology Volume 3, no. 3

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 74 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1914 Excerpt: . . . about one-thousandth part of the active principle of the seed from which it had been obtained. The average dose of strophanthus, 0.065 gm. (1 grain) contains about 0.020 gm. grain) of the fixed oil, and we have found that vastly larger amounts of the oil were without perceptible effect when administered to cats by the mouth. The official tincture of strophanthus contains only traces of the fixed oil, hence there is no possibility that this oil is concerned with emesis which sometimes follows the oral administration of the tincture. TABLE 6. --THE RELATIVE CARDIAC AND EMETIC ACTIVITIES OF FAT-FREE TINCTURE OF DIGITALIS A commercial fat-free tincture was used for these experiments, but no extravagant claims were made for it by the manufacturer. Dose Administered in Percentage of Emesis Remarks Fatal Dose 27.8 Fatal dose determined. 30.0 Fatal dose not determined. 40....

Reviews

It is just one of the most popular ebook. It is written in simple words and not confusing. I am just happy to tell you that this is actually the finest ebook I have got read inside my very own existence and may be the greatest ebook for at any time.

-- **Vicky Adams**

An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publishes this book.
