Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Gynecological and Obstetrical Monographs In this volume, the authors have attempted to present the important features of pelvic neoplasms from data obtained by a critical survey of the literature and from personal observations. Since malignant tumors form a large proportion of these pelvic new-growths, their early symptoms, appearance and diagnosis have been emphasized. As long as the etiology and prophylactic measures for cancer remain unknown, this emphasis appears merited. It has been our aim to make the monograph of practical value and considerable space has been given to treatment. In the years which have elapsed since the preparation of a similar volume, the advantages and disadvantages of surgical treatment of malignant pelvic tumors have been definitely ascertained. Radium, on the contrary, is a relatively recent addition to our therapeutic armamentarium. While conclusions as to its usefulness and value in comparison with surgery may not be definitely drawn, we must not overlook its possibilities. We have, therefore, devoted considerable space to this subject. Theoretical discussions have been included only to clarify the subject matter or to indicate various avenues for scientific research. The authors acknowledge with gratitude the aid afforded by Dr. Margaret Schulze, amounting nearly to co-authorship, in review of the literature and the preparation of the chapter on Mammoth Ovarian Tumors; to Dr. Howard Kelly for his generous permission to use many drawings which have illuminated his own texts; and to Miss Elizabeth Coats for preparation of the manuscript. They also acknowledge their appreciation of the drawings of Mr. Ralph Sweet, who made the original sketches from material in the Gynecological Laboratory of the University of California Medical School.
