Automotive Master Technician: Advanced Light Vehicle Technology

By Graham Stoakes

Graham Stoakes, United Kingdom, 2015. Paperback. Book Condition: New. Graham Stoakes (illustrator). 280 x 216 mm. Language: English Brand New Book ***** Print on Demand *****. Technology needs technicians, and the ability to harness technical diagnosis calls for a Master Technician . The rapid growth in technology used in the production of cars has highlighted the need for a different approach to vehicle diagnosis and repair. The integration of complex electronic control with mechanical systems shows the brilliance in the engineering capabilities of designers and manufacturers. While this technology has improved the comfort, safety, convenience and reliability of vehicles, it has also created an issue with established methods of maintenance and repair. As many of the control systems operate beyond our natural capabilities, diagnostic tooling is required to undertake most of the fault finding duties traditionally conducted by vehicle technicians. Also, the sophisticated nature of advanced system faults will often lead to diagnostic requirements for which there is no prescribed method. One of the fundamental roles of a Master Technician will be the diagnosis and repair of these complex and advanced system faults, for which diagnostic approaches need to be developed that can provide logical strategies to reduce overall diagnostic...
