Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Ecology of Dwarf Mistletoe Seed Unless seed are to be used immediately after collection, maximum germinative capacity must be maintained in storage. Consequently, storage practices can be evaluated only in terms of net effect upon the physiological condition of seed as represented by seed viability, germinability, longevity, and dormancy. These attributes are influenced by such environmental factors as seed moisture content, oxygen supply, temperature, light, relative humidity, and time, as these relate to the quality and rate of respiration.
