## CELL RECEPTORS

Condition: New. Publisher/Verlag: Springer, Berlin | Morphological Characterization and Pathological Aspects | The methods of molecular biology, biochemistry, immunocytochemistry, and in-situ hybridization introduce new opportunities for the classification and functional characterization of cell receptors under normal conditions and for a better understanding of pathogenetic mechanisms in human diseases. The cellular localization and translocation of receptor proteins can be identified using morphological methods, and it is apparent that receptors and receptor defects play an important role in pathology, notably...
