The designs contained in this collection were created between February 27th, 1992 and February 2nd, 1993 on a Macintosh Plus computer, with a 512 x 342 pixel monochrome display, using MacDraw 1.1, a vector based drawing program. At the time, the artist, Daniel A. Doutre envisioned these designs to be used in coloring books for adults as a way to encourage relaxation, focus, hand eye coordination and creativity. Those were the things he personally experienced as he created and colored his way through this unique collection of straight and curved lines.
