OUTLINE IN GEOGRAPHY (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Outline in Geography The sailor geography of the past, with its burdensome details of isolated bits of information, has given way to methods that recognize geography as a logical study admirably adapted to train the perceptive powers, the imagination, the reason, as well as the memory of form and fact. While not necessarily the center from which all teaching should radiate, geography is easily and naturally correlated with other studies. It cannot be separated from nature study; indeed, in the primary grades t s little else. It furnishes a rich field for supplementary reading in school and at home. It provides descriptive language work of the simplest and most useful kind. In all grades it is closely connected with history. In comparing areas, lengths of rivers, etc., and in teaching drawing to scale, it furnishes many practical applications of number work. In sand-moulding, in map-drawing and in illustrating, it affords a valuable form of manual training and drawing. To all these departments the skillful teacher will make the study of geography contribute. In the preparation of this course the observational and representative features of the work have constantly been kept in mind. As stated by the Committee of Ten, the true order of geographical should be: First, see; next, reproduce; then study the productions of others, and, meanwhile ponder and reason on all. Through a study of the simple phenomena of nature and through a study of man and his institutions as seen by the pupils in their home, school and social life in Stockton, they should be led with these standards of comparison to gain a conception of the world as a whole. In...
