THE OBJECTIVE STRUCTURED CLINICAL EXAMINATION IN ANAESTHESIA: PRACTICE PAPERS FOR TEACHERS AND TRAINEES

TFM Publishing Ltd. Paperback. Book Condition: new. BRAND NEW, The Objective Structured Clinical Examination in Anaesthesia: Practice Papers for Teachers and Trainees, Cyprian Mendonca, Shyam Balasubramanian, "The Objective Structured Clinical Examination" (OSCE) is a highly reliable and valid tool for the evaluation of trainees in anaesthesia. It enables examiners and trainers to assess a number of competencies in an organised way. Performance in the OSCE is considered to be a fair reflection of the level of knowledge and skill attained during anaesthesia training. Apart from having a wide and deep knowledge on the subject, trainees are expected to have the capacity to demonstrate their competency in a short period of time allotted for each station. The authors of this book have a rich experience in successfully conducting OSCE courses in the United Kingdom. The sample OSCE sets in the book closely simulate the style and content of the Royal College of Anaesthetists' examination format. The book contains 100 OSCE stations with answers based on key practical procedures, clinical skills, communication skills, data interpretation, anaesthetic equipment and the management of critical incidents on a simulator. The answers are presented thoroughly and clearly. The tutorial on the relevant topic and additional key points at the end of each station, together with more than 100 illustrations throughout the book will complement the reader's overall understanding. The marking system signifies the relevance of each question, enabling objective assessment of knowledge and practical skills. This book will also help candidates all over the world to pass highly competitive postgraduate examinations in anaesthesia. It is an invaluable educational resource for all anaesthetists.
