RED WHEEL/WEISER, United States, 2016. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Learn How to Use the Planets and Stars in Your Magickal Work More often than not, people think of astrology as a tool for divination or the exploration of one's personality. Astrology is considerably more than that. It is a sacred science, a highly descriptive symbolic language, and it is also a technology that can be applied to ritual, herbalism, the use of crystals, and much more. But it can be daunting to take on the study of Astrology. After all, it's a field so huge it would take several lifetimes to master it. And that's why Ivo Dominguez, Jr., wrote this book--to provide practitioners of magick with a Pagan perspective on Astrology and the core concepts of Astrology that are most useful to building rituals and creating effective magick. When we look at an astrological chart, what we are actually looking at is a map of the multiple planes of existence summarized and flattened into an understandable diagram--a kind of magickal cartogram. Now, what to do with this map? How can we best use it in our magickal work? That's precisely what you'll discover in the pages of this concise, focused, and expertly presented book.
