Date :2010-09-01 version 1. 30 years of reform and opening up. China's economic construction has made remarkable achievements. GDP per year to about 10% speed increase. However, you know, a considerable part of this brilliant achievement (several hundred billion yuan per year), offset by the loss of the environment! Because people are often quick success, regardless of long-term survival of this our only home - Earth, as a cornucopia, a cash cow and trash, waste water tank, any predatory ravaging her ecosystem, has been a serious all-round pollution, destruction, and had to spend big money to governance: including air, water, soil, forests, biodiversity, etc.; green and arable land, mineral resources in the drastic reduction of the ozone hole in the desert and to expand, dust storms, drought floods and other disasters one after another. This Give me my nature (earth wake-up call) by Li Xing Wang Rennong Academy of Science and compiled a detailed list of all these shocking circumstances surrounding the crisis and some control measures, reading thought-provoking, encouraging people to make...
