

Geographic Information Systems Application for Bicycle and Pedestrian Decision - Making: Peer Exchange Summary Report (Paperback)

By U S Department of Transportation

Createspace, United States, 2009. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.On May 11-12, 2009, during National Bike Month and National Bike to Work Week, the Federal highway Administration s (FHWA) Office of Interstate and Border Planning sponsored a peer exchange to promote the advancement of bicycling and walking as healthy, efficient, and safe transportation modes. The exchange focused on select transportation agencies applications of geographic information systems (GIS) to accomplish various bicycle and pedestrian objectives, was to all participants with notable GIS applications the opportunity to share knowledge and experience. Lessons learned and challenges faced in using GIS for bicycle and pedestrian considerations were also discussed. This report provides a summary of the presentation made and discussions held at the peer exchange. It serves as a resource for state DOTs and transportation agencies looking to learn more about the implementation of GIS for bicycle and pedestrian planning. The report concludes with a section of the lessons participants stated as having learned and recommendations they made for moving forward.

Reviews

Absolutely one of the better ebook We have ever study. it had been writtern quite completely and valuable. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Carol Lehner II**

Thorough guide! Its this kind of excellent go through. It normally will not price an excessive amount of. You may like just how the blogger compose this ebook.
