JESSICA KINGSLEY PUBLISHERS, United Kingdom, 2008. Paperback. Condition: New. 2nd edition. Language: English . Brand New Book. For years, I have strongly advised adults to read *Grief in Children* because I believe it is the most sympathetically written and accessible book on the topic. It is the thoughtful distillation of many years clinical experience of working with bereaved children and their families. - from the foreword by Professor William Yule Praise for the first edition: This is a very user-friendly book. It is presented in a way which enables the reader to browse or go direct to a certain section, but at the same time is engaging enough to sustain one's interest to read the whole book. - Australian Social Work Dyregro's writing is clear in its description, and explicit in its advice, and demonstrates that the daunting task of helping a child through grief is both manageable and rewarding. The book will, I'm sure, become required reading for all those touched by the care of bereaved children. - Bereavement Care . a handy, small book ideal for teachers, social workers, counsellors, parents and others faced with the task of understanding children in grief and trying to help them. - Association for Child Psychology and Psychiatry Newsletter There is valuable material on grief at various ages and development. The question What makes the grief worse? is neatly answered and a brief, but useful, section alerts the helper to differences in the grief experienced by boys and girls. The chapters on care for bereaved children are packed with good sense and practical suggestions. Many interesting ideas are given on ways to deal with bereavement in the setting of the classroom. There is much to commend this handbook. It is of manageable length, giving information concisely and supplementing it...
