It is believed that there is Game blood in this breed. They are highly esteemed for their splendid laying qualities; the eggs, though larger than Hamburgs, are rather small and are claimed to be of the richest, and averages of 200 per bird are often attained. They make very good table birds, the flesh being white and of fine flavor. Redcaps will be found useful for crossing purposes where the yield of eggs requires increasing. Average weight of adults: cocks, 7 lbs.; hens, 5J lbs. Scotch Greys, as their name implies, hail from Scotland, where they have been bred for a number of years, and are sometimes called the Scotch Dorking. This breed might with advantage be made greater use of in England, either in its pure state or for crossing purposes. In the latter case they would be...

### Reviews

*A must buy book if you need to adding benefit. It is really simplified but shocks in the 50 percent of the pdf. I found out this pdf from my i and dad recommended this publication to learn.*
