Reviews

It is one of the most popular books. I am quite late in starting to read this one, but better than never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

American submarines, though smaller, could dive deeply, move quickly, and provide both firepower and survivability. Though their Type XIV and Type XVIII torpedoes could not match the Japanese Type 93, they still gave a lethal punch, particularly after improvements in late 1943.
