Afterburner Naval Aviators and the Vietnam War

By John Darrell Sherwood

NYU Press. Hardcover. Condition: New. 353 pages. Dimensions: 9.1in. x 6.1in. x 1.5in. View the Table of Contents. Read the Prologue. An exceptionally well written, well documented, fast-moving account. Washington Times This is a book written on multiple levels, and well worth reading. M. S. Naval Institute Proceedings This book is a welcome addition to the history of naval aviation and fills a much-needed void by detailing the later years of the Vietnam naval air campaign. Sea Power Makes for lively, vivid, and informative reading. I would include it. . . on my list of the top ten books on the air war in Vietnam. Air Power History John Sherwood has done a fine job in giving us a first-rate account of a confusing but critically important period in Naval Aviation history. The Hook As a collection of individual studies and war stories, Afterburner should find an interested readership. Military History With a 45-degree dive angle set, 450 knots of airspeed building, and my altimeter unwinding like crazy, my scan went rapidly between the bombsight and flight instruments. . . . When I looked over my shoulder at the target, I could see where the bombs had hit and exploded. Through...
