It is one of the most popular ebooks. I have studied it and I am certain that I am going to likely read it again and again in the future. I am happy to inform you that this is actually the greatest ebook I have studied in my very own life and might be the best ebook for possibly.

Springer. Paperback. Book Condition: New. Paperback. 258 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. Noughts had, alls spent, Where our desire is got without content: 'Tis safer to be that which we destroy Than by destruction dwell in doubtful joy. So speaks Lady Macbeth upon the attainment of the aim of her ambition (act 3, scene 2). Is this expression of a fear of success the consequence of the highly competitive arena in which she is striving to achieve? Will this sentiment later lead to the avoidance of this or other forms of success? Does she fear success because she is a woman? While the fear and avoidance of success are ideas that are not new to psychology or to human behavior, recent work by Martina Homer has excited great interest in the psychological measure of a personal disposition to avoid success and a behavioral measure of that avoidance. It is with this recent wave of research and writing that Part II of this book is concerned. Great personal interest was stimulated in the fear of success concept. It is not only the hypochondriacs who find in the idea of a fear of success syndrome an explanation for the course of their lives. In Part I are presented the earlier forms which the concept of fear of success took, especially in psychoanalytic theory and personality theory, originating with Freud's discussion of those wrecked by success, but citing some of the much older cultural traditions involving a fear and/or avoidance of success.
