University of New Mexico Press, United States, 2008. Hardback. Condition: New. Language: English . Brand New Book. Whether they re darting across the evening sky in search of their breakfast or hanging from their upside-down roosts in caves, old mines, buildings, and trees, bats play a crucial role in the natural world but are all too often misunderstood by people who think of them as strange birds, flying rats, or Dracula in disguise. Karen Taschek s thoughtful and engaging exploration introduces young readers to the complicated and fascinating world of bats, both in their natural habitats and in the human imagination. Containing a wide range of bat-related topics, from their relationships with ecosystems to why you shouldn t be afraid of vampires, Hanging with Bats addresses echolocation, vocalization, migration patterns, and breeding habits with enthusiasm. Taschek also includes information on what to do if a bat gets in your house, building bat houses, and how to imitate bat talk.
