Roman Numerals I to Mm (Paperback)

By Arthur Geisert

Walter Lorraine Books, United States, 2001. Paperback. Condition: New. Language: English . Brand New Book. With a farm of pigs as his abacus, Arthur Geisert uses elements of a search and count game to bring Roman numerals to life in this unimimidating math-concept book. First, the seven Roman numerals are equated with the correct number of piglets. Then the reader may practice counting other itemshot-air balloons, gopher holes, and moreas the remarkable adventure unfolds. (And yes, there are one thousand pigs in the etching for M!).

Reviews

I actually started out looking at this book. It really is rally interesting through studying time period. I am just happy to inform you that here is the greatest ebook i have read through within my personal daily life and could be he best book for possibly.

-- **Miss Myrtice Heller**

Great electronic book and valuable one. It really is simplistic but surprises within the fifty percent from the book. Its been printed in an extremely simple way in fact it is merely right after i finished reading this publication by which in fact modified me, change the way i really believe.
