An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer publishes this book.

WHAT IS SOCIALISM?: A SHORT STUDY OF ITS AIMS AND CLAIMS (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from What Is Socialism?: A Short Study of Its Aims and Claims Although at that time one man worked for another it was not in the capacity of the wage-worker of today; it was rather an apprenticeship for the purpose of learning the trade. This once learned. He was free and able to open his own shop and own his own product. It was when the simple and easily-made tool of the hand-worker was replaced by complex and expensive machinery that the workingman lost control of the instruments of production; it was when the increased size and cost of these tools made them too expensive for the ordinary worker to own that the small employer became the capitalist. And the employee became the wage-slave. Right there. The division of modern society into two distinct and antagonistic classes began.
