Grey House Publishing Inc, United States, 2016. Hardback. Book Condition: New. 2nd Revised edition. 229 x 152 mm. Language: English . Brand New Book. This brand-new edition analyzes the use of place in over 1,300 literary works. Joining the Masterplots family of literary reference, it completes the foundation of sources for the three primary approaches to literary criticism: story (Masterplots, Masterplots II), character (Cyclopedia of Literary Characters), and setting. This set contains articles on over 1,300 literary works selected titles covered in Masterplots. The selected titles are those that best lend themselves to meaningful discussion of place as a literary device. The articles contain more than 6,000 separate place entries. Each article provides a full title, author s name and vital dates, type of work, type of plot, time of plot, and date of original publication. A brief introductory paragraph explains where the work is set and comments on themes and patterns in the work s use of place. Discussions within the entries focus on how places are used as literary devices within the novels, plays, or poems in which they appear. Articles are arranged alphabetically by book title and begin with ready-reference top matter information about the author and the book, including each book s title, foreign title if originally published in a language other than English, author s name with birth and death years, date of first publication, genre, locale, time of action, and plot type. The characters are arranged by order of importance within each article. The central or key characters receive lengthy descriptions; supporting and minor figures receive less extensive treatment. Books by a given author that commonly are studied together are treated in a single article, allowing the user to study character development across the books. Heavily cross-referenced indexes allow easy access to all title...
