

Jacobi Operators and Completely Integrable Nonlinear Lattices (Hardback)

Filesize: 8.45 MB

Reviews

If you need to adding benefit, a must buy book. Better then never, though i am quite late in start reading this one. I am effortlessly could possibly get a satisfaction of reading a created pdf.

(Trevor Von)

JACOBI OPERATORS AND COMPLETELY INTEGRABLE NONLINEAR LATTICES (HARDBACK)

To download **Jacobi Operators and Completely Integrable Nonlinear Lattices (Hardback)** eBook, remember to follow the hyperlink under and download the file or have access to other information that are related to JACOBI OPERATORS AND COMPLETELY INTEGRABLE NONLINEAR LATTICES (HARDBACK) book.

American Mathematical Society, United States, 1999. Hardback. Condition: New. Language: English . Brand New Book. This volume can serve as an introduction and a reference source on spectral and inverse spectral theory of Jacobi operators (i.e., second order symmetric difference operators) and applications of those theories to the Toda and Kac-van Moerbeke hierarchy. Beginning with second order difference equations, the author develops discrete Weyl-Titchmarsh-Kodaira theory, covering all classical aspects, such as Weyl \mathcal{M} -functions, spectral functions, the moment problem, inverse spectral theory, and uniqueness results. Teschl then investigates more advanced topics, such as locating the essential, absolutely continuous, and discrete spectrum, subordinacy, oscillation theory, trace formulas, random operators, almost periodic operators, (quasi-)periodic operators, scattering theory, and spectral deformations. Utilizing the Lax approach, he introduces the Toda hierarchy and its modified counterpart, the Kac-van Moerbeke hierarchy. Uniqueness and existence theorems for solutions, expressions for solutions in terms of Riemann theta functions, the inverse scattering transform, Backlund transformations, and soliton solutions are derived. This text covers all basic topics of Jacobi operators and includes recent advances. It is suitable for use as a text at the advanced graduate level.
