ENVIRONMENTAL ENGINEERING AND SUSTAINABLE DEVELOPMENT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Reactors for Catalytic Reactions to Maximize Production-Minimize Pollution (MPMP) | This book combines novel catalytic membrane reactors and sustainable development using system approach and mathematical modeling. It shows that novel configurations coupled to modeling and optimization are essential for achieving sustainable development with maximum production of the desired product and minimization of the undesired side products. This novel work should be supported by experimental verification of its findings. | Format: Paperback |...
