

Using High Resolution Design Spaces for Aerodynamic Shape Optimization Under Uncertainty

Using High Resolution Design Spaces for Aerodynamic Shape Optimization Under Uncertainty

NASA Technical Reports Server (NTRS), Wu Li, Sharon Padula

Book Review

This is the finest publication we have read through right up until now. Better than ever, though I am quite late in starting to read this one. It has been written in a remarkably easy way in fact it is only after I finished reading through this book that I basically altered my way of thinking.

(Dr. Gabriella Hayes)
