

EPA Handbook for Use of Data from the National Health and Nutrition Examination Surveys (Nhanes): A Goldmine of Data for Environmental Health Analysis

By U S Environmental Protection Agency

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.This Handbook provides descriptive background information and general guidance on how to access and use data from the National Health and Nutrition Examination Surveys (NHANES). This is an enormous human database that can be used to develop information suitable for use in risk assessments, and to support regulatory and policy needs of EPA. For more than 30 years, EPA has been one of many collaborating agencies that help plan and support funding of data collection through NHANES. Because only a limited number of Agency managers and staff are aware of the content and availability of this rich database, this Handbook was developed to familiarize staffs with NHANES and foster increased use of the data to support EPA needs. Despite the limitations and complex design of this survey, it is clear that NHANES is a unique, rich database that offers a tremendous amount of human health, nutrition, and exposure information, and will continue to do so into the future. It is hoped that by informing staff about NHANES, this Handbook will encourage efforts to mine the data to support...
