

Dredges and Gold Dredging (Classic Reprint)

By New York Engineering Company

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Dredges and Gold Dredging We are often asked why we located in the East. Briefly, because we are right in the center of production of all the material entering into the construction of a dredge. The largest part of the machinery is of special steel, cast, wrought, manganese, chrome and nickel, all of which are produced only in the East and at our door; in fact, most of the material for all of the important parts of every dredge built in this country is produced on the Atlantic Coast. Being located in the very center of production, we procure the best material quickly and cheaply. Inspection And Selection Of Raw Material Our supervising engineers are constantly visiting the mills, inspecting, selecting and testing our materials; therefore, we get the best selection and quality to meet our wants in the shortest time possible. Hence we are able to turn out complete dredges in much shorter time, and at less cost, than any of the Western Manufacturers. We are the first and only concern in this country...

Reviews

A top quality ebook and the typeface used was interesting to read through. It is rally intriguing through reading through period. You wont feel monotony at anytime of the time (that's what catalogues are for relating to when you ask me).

-- Estelle Donnelly

This is actually the very best pdf i actually have study till now. I am quite late in start reading this one, but better then never. You will like just how the author publish this ebook.
