Mining and Metallurgy With a Set of Mining Maps

Filesize: 4.13 MB

Reviews

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).

(Prof. Buddy Leuschke)

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 52 pages. Original publisher: Washington, D. C. : The Division ; Gaithersburg, MD (P. O. Box 6015, Gaithersburg 20877) : U. S. General Accounting Office distributor, 1991 OCLC Number: (OCoLC)25170599 Subject: Database management -- Computer programs. Excerpt: . . . Chapter 3 Data Validation, Documentation, and Testing of Data Analysis GAO products rely on quality evidence and sound analysis to support the findings, conclusions, and recommendations. Therefore, data validation, documentation, and testing of data analysis are extremely important in ensuring quality products. This chapter discusses validating original data, validating data transferred between computers and software packages, documenting interactive work sessions, and documenting and testing data analysis procedures. Procedures discussed in this chapter apply to both dBASE interactive and programming modes. Government Auditing Standards requires checking the Data Validation validity of original data. In addition, it is good practice to establish checks to ensure the integrity of data when it is transferred between computers or different software packages. These checks generally include reasonableness checks, record counts, data totals, hash totals, and data verification. A reasonableness check is a common sense look at the data. For instance: Are amounts too small (cost per mile to operate a 1-ton truck . 004) Are amounts too large (accrued annual leave balance for a non-SES employee 3, 000 hours; a student loan for 1, 500, 000) Are the data fields complete (data field for patient name is blank; Social Security data field has only eight numbers) Does the data seem logical (a child is older than her mother) Page 13 GAO IMTEC-11. 1. 1 This item ships from La Vergne,TN. Paperback.
