SOCIAL ETHICS AN INTRODUCTION TO THE NATURE AND ETHICS OF THE STATE

BiblioLife. Paperback. Book Condition: New. This item is printed on demand. Paperback. 360 pages. Dimensions: 8.0in. x 5.0in. x 0.8in. There is no lack of social studies, but it seems to me that there is room for a book which treats social phenomena from a distinctively Christian point of view, and yet gives adequate place to the conclusions of science and philosophy. What is wanted is a Christian cosmic philosophy, for philosophy must be Christian to be cosmic. Mr. Herbert Spencer tried to build a cosmic philosophy on the basis of matter and motion; Mr. John Fiske went so far as to admit that science could not disprove immortality; but the last word on the philosophy of the universe must not ignore spiritual facts. Science must come to recognize the fact that spirit is supreme over matter, rather than dependent on matter for existence. I believe that the student must look at the facts of the universe from the position of Jesus, if he is to gain the proper perspective. Thus may he hope to find the harmony of the universe. In Him all things consist, and the view which leaves Jesus Christ out of the universe, or makes Him anything less than a controlling factor, is fatally defective. (Typographical errors above are due to OCR software and do not occur in the book.)
