IMPLEMENTING ELECTRONIC DATA INTERCHANGE TO PROVIDE IN-TRANSIT VISIBILITY (PAPERBACK)

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Computers. information systems. and communications systems are being used in the transportation industry to replace cumbersome, paper-based communications processes. In every US contingency, the lack of visibility over troop movements and cargo shipments has limited the military s ability to effectively conduct operational plans. Current Department of Defense (DoD) initiatives provide some level of in- transit visibility (ITV). but are we using effective...
