Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Continuous Time Stopping Games This paper presents the theoretic findings on the continuous time version of the general stopping games. The game theoretic extension of the optimal stopping theory in the discrete time framework was initiated by Dynkin [1969] in analysis of a class of two - person zero - sum stopping games. The modifications and extensions include Chaput [1974] in zero - sum stopping games and Mamer [1986] in two-person nonzero-sum stopping monotone games. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
