Parking and Traffic Study, Shelby, N. C (Classic Reprint) (Paperback)

By N C Division of Community Planning

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Parking and Traffic Study, Shelby, N. C Two basic requirements of the automobile must be considered in any program to help revitalize Downtown Shelby. Autos need streets on which to move and spaces in which to be stored or parked. In Shelby and in most cities, both of these fundamental requirements are being only partially met by fitting the function of each into the existing grid street pattern. In trying to serve both functions the downtown street system serves neither with efficiency. To meet the needs of today, the downtown area needs a street system which is designed to move vehicles without the interference of pedestrians, conflicting through city traffic, or adverse turning movements. In addition to this, auto mobile storage should be provided in off-street lots, conveniently located with respect to the main shopping stores, and the major traffic streets. This report is a study of the parking and traffic circulation system presently being used within the Shelby Central Business District. It is being prepared concurrently with a preliminary design plan for the business district. The major emphasis in...
