Cambria Press, United States, 2010. Hardback. Condition: New. New.. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Yemen is an arid and mountainous country in the southern corner of the Arabian Peninsula. Yemen is mostly rural, with over half the population below age 15, and more than one-fifth of its 22 million people are malnourished. One of the poorest Arab countries, Yemen s birth and population growth rates are also among the world s highest. With an annual growth rate of 3.4 , the population could double by 2030. The country s current fertility rate is 6.2. This reflects a high birthrate, 39.2 per 1,000 population, and a declining mortality rate, 11 per 1,000 population. Yemen s infant mortality rate, however, still ranks as one of the highest in the world. This includes a mortality rate of 102 per 1,000 live births for children under 5 years old in 2003. From the late 1980s through the late 1990s, Yemen experienced a high maternal mortality ratio of 351 maternal deaths per 100,000 live births. Maternal deaths account for about 42 of all deaths among Yemeni women between the ages of fifteen and forty-nine. Since the unification of Yemen in 1990, several structural reforms and policy changes have been introduced to control its population growth. Although the government recognizes population growth as a major challenge to development, little progress has been made in implementing population policy and societal consensus remains elusive. Thus, the structural context of reproduction in Yemen exposes women to a large number of risks. The disadvantages of poverty and poor health among women are passed on from one generation to the next. Even during the course of reproduction, poor women face several threats to their physical and mental well being. While these disadvantages have been well chronicled...
