

Bulletin Volume 235

By Pennsylvania. Dept. Of Agriculture

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 84 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 Excerpt: . . . continued at Purdue Experiment Station along lines similar to those of preceding years. A summary of this work is presented, together with a discussion of results as published in Bulletin 153. Summary: The only satisfactory method of judging the economy of rations is to consider together all the controlling factors entering into the feeding operation. No single factor is a true measure of the economy of a ration. The great number of factors involved in cattle feeding makes it impossible, in a limited space, to clearly discuss Purdue Exp. Sta, Bulletin, 136. them in their numerous and complex combinations. Therefore, the discussion of the trials as a complete transaction is presented, with such variable factors as weight and cost of cattle, cost of gains, selling price of cattle and profit or loss per steer as they occurred during the trial: In the above summary, the...

This is actually the finest ebook i have got study till now. I actually have go through and that i am sure that i am going to likely to read once again once again later on. Its been developed in an extremely straightforward way and is particularly simply soon after i finished reading through this ebook through which actually modified me, change the way i really believe.

-- Mrs. Maybelle O'Conner

Very good electronic book and useful one. it absolutely was writtern extremely completely and useful. You will not feel monotony at at any moment of your respective time (that's what catalogs are for relating to when you question me).
