## Nature's Experts: Science, Politics, and the Environment (Paperback)

By Stephen Bocking

Rutgers University Press, United States, 2004. Paperback. Condition: New. New. Language: English . Brand New Book. With clarity and grace, Stephen Bocking tackles the complicated question of the role of scientific expertise in environmental policy making. Nature's Experts is a timely and important book.-David H. Guston, author of *Between Politics and Science: Assuring the Integrity and Productivity of Research* This book by Stephen Bocking is as much about deliberative democracy as it is about science and the environment. Stephen Bocking's treatment is deep, perceptive, and profoundly wise. He has caught the heart of present and future environmental science, politics, and democratic governance. -C. S. Holling, The Resilience Alliance and emeritus professor, Arthur R. Marshall Jr. Chair in Ecological Sciences at the University of Florida If knowledge is power, how should expert advice be deployed by a would-be democratic society? This perennial question is newly illuminated by this timely and wide-ranging review of the role played by science in the making of environmental policy. -William C. Clark, Harvey Brooks Professor of International Science, Public Policy, and Human Development, Harvard University, John F. Kennedy School of Government It seems self-evident that science plays a central role in environmental affairs. Regulatory...
