Excerpt from Information Concerning Scientific Instruments In response to the request of the Ways and Means Committee for information concerning scientific instruments, the Tariff Commission has compiled the following somewhat general and purely preliminary data. To a considerable extent material was obtained from replies to a questionnaire sent to the various sections of the Bureau of Standards and a circular letter sent to a number of manufacturers. Several of the important universities were asked to submit opinions regarding the repeal of the present duty-free clause. Excerpts presented as a part of this report have been made from the statements received by the commission from these various sources.
