Johns Hopkins University Press. Hardback. Book Condition: new. BRAND NEW, Exploring the Religious Life, Rodney Stark, Though religion is for most people one of the most important aspects of their lives, social scientists and other observers of human society too often misunderstand and misrepresent the nature and role of religion in history and in daily life. Divine revelation is a central aspect of many religions, and Stark next applies empirical research to the phenomenon to assess its meaning in Judaism, Christianity, Islam, and Mormonism. He then turns to the confusion between faith and practice in debates over the secularization of the developed world before investigating the validity of the classic proposition within the social sciences that religion functions to sustain the moral order. He does so, examining the correlation...
