Excerpt from Outlines of Lectures on the Neurological System of Anthropology, as Discovered, Demonstrated and Taught in 1841 and 1842, Vol. 1 of 4 The work which I now lay before the public is correctly styled outlines OF lectures. It is an attempt to present in a concise manner the fundamental ideas of the System of Anthropology which I have taught in my lectures since 1842, and thus give to the reader a periscopic view of the science, preparatory to publishing works of ampler dimensions upon its different departments, in which the sub jects might be more satisfactorily illustrated.
