Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.DOE prepared this Environmental Assessment (EA) to assess the potential for impacts to the human and natural environment of its Proposed Action -- providing financial assistance to Novolyte under a cooperative agreement. The expansion would include increasing capacity and utilization of the existing electrolytes facility, and would include constructing a new production building, moving existing equipment into the new facility, and adding additional capabilities to meet the forecasted demand. Additionally, the Proposed Project would create 18 permanent jobs. The environmental analysis identified that the most notable changes, although minor, to result from Novolyte's Proposed Project would occur in the following areas: air quality and greenhouse gas, noise, geology and soils, surface water and groundwater, vegetation and...
