

good math - under the golden egg of math problems

By HAN XUE TAO

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 322 Publisher: Hunan Science and Technology Press Pub. Date :2009-07-01. Throughout the history of mathematics, such an important and valuable mathematical problems and countless others. We want to introduce the book is from algebra, geometry, graph theory, number theory pick out six of these classical mathematical problems. In the first chapter, we introduce the radical solution of the problem of polynomial equations. This issue is related to the central issue of algebra - solving equations. Through the introduction of this issue, we will see how algebra problem with this research one step to develop. We will also see the final solution to the problem is, in turn algebra lead a new direction. In the second chapter, we introduce three geometric problems, namely, angle trisection by ruler, times the cube, square the circle. This problem belongs to plane geometry. The problems have to order one of analytic geometry as a tool. Therefore, in this chapter we will briefly analytic geometry. In the third chapter, we introduce the Euclidean fifth postulate problems. This issue also from the Euclidean...

Reviews

I just started reading this article ebook. It really is writter in easy phrases and not difficult to understand. I am just very happy to tell you that here is the very best pdf we have read during my individual life and might be he very best ebook for actually.

-- Camren Kuvalis

This is the finest publication we have read through right up until now. Better then never, though i am quite late in start reading this one. Its been written in an remarkably easy way in fact it is only after i finished reading through this book by which basically altered me, affect the way i think.

-- Dr. Gabriella Hayes
