Excerpt from Dryden s Fable of the Hind and the Panther: Considered With Regard to the Ecclesiastical Policy of James the Second Times were troublesome in England when James the Second was at the head of the nation. In 1685 - 1688 the royal power made efforts for the last time to undermine the liberties and rights of the nation, political as well as personal and religious, it tried every means to establish an absolute government at the expense of national privileges and prerogatives of the parliament. It is well known that James the Second did not meet with success. The constitution of England proceeded save, even strengthened from the conflict, and never since a king of England could succeed to modify it in favour of the crown. That short reign of James the Second, as it is worthy already for this political reason to be studied with the greatest attention, seems no less important to an ecclesiastical historian and to every one who takes an interest in the history of development of the Church of England. James the Second, the last of the sovereign Stuarts and as I believe, the least too, was also the last king of England confessing himself a Catholic. He, the last, tried to overthrow the edifice of Established Church and to convert by force or unconstitutional means the nation to Catholicism. - Conviction, however, cannot be obruded. It is obvious that those pertinacious attempts of converting the English nation to Catholicism have been the very cause of James misfortune.
