Absolute Truths, or Uncensored Free Speech, One of Them Leads Us to Hell: It Would Be Impossible to Investigate Our Universe Without a Set of Principles and a Scientific Logic (Paperback)

By Hossein Dallalbashi

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.We are faced with a Universe that is atomically integrated, and interwoven, going through un-interrupted evolutionary changes, with human beings and other biological beings as inseparable integral parts. The incredibly unexplainable miracle of the Universe is that it is law-governed, acting as if it were moving completely in accordance with a conscious design. This is a contentious argument that is undeniable by believers, non-believers, and agnostics as well. There is nothing about the Universe that is acting chaotically. We could literally refer to millions of things that we encounter on a daily basis, and we could see that each unfolds according to a relatively regular pattern. Einstein believed that God does not play dice with the Universe. Laws of the Universe are the secrets of the Universe that have to be discovered, regardless of how they came about, and what philosophical preferences we may hold. The resolution of practical problems, related to everything we do in life, will force us to go through the trouble of discovering these laws. All governments, with different religious orientations, possessing nuclear bombs, had to go through...
