

Explaining Digital: Birth of a Future We Never Had (Paperback)

Filesize: 5.95 MB

Reviews

Certainly, this is actually the greatest job by any publisher. It is really simplistic but shocks within the 50 % of the pdf. I am just happy to tell you that this is the very best ebook i have read in my own lifestyle and may be he greatest ebook for actually.
(Marge Jacobson MD)

EXPLAINING DIGITAL: BIRTH OF A FUTURE WE NEVER HAD (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Here we are. The 21st century. Still fresh. You, me, and seven billion fellow human animals that call themselves Homo sapiens . We do see the future ahead, but not the rearview mirror that reflects it. We no longer go hand in hand. Our hands are filled with phones smarter than us, and safely keep us apart. That is the world we created, me and my fellow baby boomers. The more knowledge we gained, about the universe, ourselves and the genesis of both, the less we understood. Instead, we create a comical world filled with unprecedented and unnecessary tragedy. Our blindfolds of ignorance and arrogance keep us from seeing that the tragedy is not a necessary evil , not the result of human nature, but sheer idiocy. Our human stupidity is infinite , Albert Einstein said with kindness. No, this is not a doomsday book. This book reveals the gateway to the richest source of hope humankind ever had. When the first digital computer terminated WW II earlier than expected, we took the wrong turn by taking no turn. Still today, we are oblivious to the fundamental transformations taking place in front of our eyes. While the internet turns the old game of war and peace as a cruel joke, we go on as if social media , cyber-crime or remote controlled bombs, are just the new tools to play an old game. They are not. Digital is the name of a new existence, where bits and bytes rule, not atoms and molecules. Tragically, we do not recognize that digital technology offers the gateway, and the only one, to the future. A future with us in it, that is. For the first...
