By Thomas Dixon

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Science and Religion: A Very Short Introduction, Thomas Dixon, The debate between science and religion is never out of the news: emotions run high, fuelled by polemical bestsellers like *The God Delusion* and, at the other end of the spectrum, high-profile campaigns to teach 'Intelligent Design' in schools. Yet there is much more to the debate than the clash of these extremes. As Thomas Dixon shows in this balanced and thought-provoking introduction, many have seen harmony rather than conflict between faith and science. He explores not only the key philosophical questions that underlie the debate, but also the social, political, and ethical contexts that have made 'science and religion' such a fraught and interesting topic in the modern world, offering perspectives from non-Christian religions and examples from across the physical, biological, and social sciences. Along the way, he examines landmark historical episodes such as the trial of Galileo by the Inquisition in 1633, and the famous debate between 'Darwin's bulldog' Thomas Huxley and Bishop Wilberforce in Oxford in 1860. The Scopes 'Monkey Trial' in Tennessee in 1925 and the Dover Area School Board case of 2005 are explained with reference to...

Reviews

This is an amazing book that I actually have actually read through. I am quite late in start reading this one, but better then never. You will not truly feel monotony at anytime of the time (that's what catalogs are for concerning should you ask me).
