Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Boundary Value Problems | By using semi-analytical iterative method introduced by H.Temimi, we solve some nonlinear higher order multi-point boundary value problems. We demonstrate clearly that the method is accurate, fast and has reasonable order of convergence for these problems. We also apply the techniques of mean value theorem to some linear and nonlinear integral equations. The results confirm that the method is very effective and simple. | Format: Paperback | Language/Sprache: english | 68 pp.
