

## Stochastic Control in Eye Movement Tracking (Classic Reprint) (Paperback)

By Shean Wang

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Stochastic Control in Eye Movement Tracking In a dark room, the subject was asked to fixate on a light spot which is controlled by a target motion generator. A small beam of infra-red light was directed to the left eye ball, and its reflection was collected by a pair of photocells aimed at the iris-scleral border as shown in Figure 3a. Eye positions could be detected by the difference in output of these two photocells. Then an operational amplifier was used to amplify the difference and send it to a Sanborn recorder. In order to minimize the interference introduced by motion, the subject leaned his forehead against a firm bar and bit on a piece of dental impression wax as shown in Figure 3b.
