

Benchmark Development for the Evaluation of Visualization for Data Mining (Classic Reprint) (Paperback)

Filesize: 6.52 MB

Reviews

Merely no phrases to spell out. I actually have read through and i am certain that i will gonna study once again again later on. You wont truly feel monotony at at any time of your time (that's what catalogues are for about should you check with me).
(Jaiden Konopelski)

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Benchmark Development for the Evaluation of Visualization for Data Mining We are currently seeing a rapid growth in the development of tools and techniques for supporting knowledge discovery in databases (kdd). New sets of powerful data visualization tools have appeared in the marketplace and in the research community. This, combined with readily available computer memory, speed, and graphics capabilities, makes it possible to explore larger and larger data sets. While this trend has served to increase the interest and effort of corporations in exploring their data for hidden nuggets of information, these visualization tools are not well integrated with data mining software, and it is difficult to judge the effectiveness of either the visualizations or the data mining. To remedy the situation, it is becoming increasingly important to develop appropriate data sets and reproducible benchmark tests to identify the current best practices and to steer development of future systems. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
