Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from History of the Regality of Musselburgh: With Numerous Extracts From the Town Records So much is this acknowledged, that detached contributions like the present are encouraged everywhere - in England, perhaps, more than in Scotland - and it is generally conceded that history - genuine history - is only to be written when the charter chests of long existing communities, as well as of religious houses, and those ancient families, whose ancestors have been active participants in the great national dramas of the past, have been thoroughly ransacked. Much light has already been thrown upon the last two great eras in this country - the Reformation, including the Cromwellian period, and the Revolution - by the opening up of previously hidden sources of information. The once popular and still classic History of Scotland, by Robertson, for example, has been wholly cancelled by the greater researches of Tytler. That the work of excavation, however, is not yet by any means complete, we have numerous recent proofs in the sketchy, well written, but inaccurate History of England by Macaulay. The laboured defence of King William, in reference to the massacre of Glencoe, by that ingenious author, for instance, has been wholly upset by the production of one or two documents from the charter chest of Breadalbane. It is thus extremely dangerous for any writer to undertake history without a thorough knowledge of facts, which his own or the researches of others may have placed within his reach.
